ngapress@glass.org**Suppliers and Products Finalized for The Dream Showroom at GlassBuild America 2016***Who's who of the residential fenestration industry participating.*

The Dream Showroom returns to WDDA's Window & Door Dealer Days at GlassBuild America in 2016, providing a unique venue for dealers to see, touch and talk about new residential windows, entry doors, patio doors, multi-panel door systems, hardware and technology.

The fenestration suppliers and products that window and door dealers will see in this year's showroom are:

[Flexscreen LLC](#) - Flexscreen is a patented, revolutionary, nearly indestructible window screen that is effortless to install and beautifully invisible.

[GlassWorks](#) - As GlassWorks's premier product line, their laser engraved doors provide a unique showcase for the capabilities of laser glass engraving. This technology is representative of a new level of high-end interior and exterior design. GlassWorks offers laser systems ranging from door size all the way up to 10' x 44'.

[JELD-WEN](#) - JELD-WEN makes it easy to maximize natural light with its expansive patio doors and wall systems. In fact, the new JELD-WEN Premium vinyl multi-slide patio door dramatically expands the perceived space in any room with up to four-panel units reaching 10 feet in height and 24 feet in width. All panels move on dedicated tracks, allowing for greater flexibility with indoor/outdoor living spaces.

[LaCantina Doors](#) - LaCantina's Aluminum Thermally Controlled system is the result of an extensive design process focused on energy efficiency, structural integrity and versatility.

[Loewen](#) - Loewen Casement Windows are unique due to the wide variety of styles and options—French, Mission and Push-out—as well as with a variety of retractable and swing screens. Loewen Terrace Doors are a new 3" Narrow Stile Door option designed to give maximum views with minimal sash framework.

[ODL](#) - ODL Blink Blinds + Glass for windows is a fresh new addition to the fenestration community and offers a unique solution to traditional blinds and windows.

[Panda Windows & Doors](#) - The S.31 PandaSelect multi-slide door system is a visually striking combination of wood and aluminum allowing it to last longer and maintain its appearance under difficult weather conditions.

[Pirnar](#) - Pirnar Ultimium Pure is the world's first entrance with an automatic handle and Pirnar OneTouch is the world's first automatic door handle, both using fingerprint scanning.

[PR Germany](#) - PR Germany's switchable Bulldog Glass offers three different technologies in one pane, while their Communication Window consists of liquid crystals controlled by the company's Controlbox to allow three functions: transparency, touch screen and security screen, and the PR Climate Window is built in a special engineered frame, containing cooling and heating elements.

[Renoworks](#) - Renoworks Pro is a web-based visualization software enabling contractors to quickly design realistic images of remodeled homes before a project starts.

[Summit Automation](#) - Summit Automation offers solutions for sliding door and window automation with four motors available for any size door unit or configuration.

[Sunrise Windows, Ltd.](#) - Sunrise Windows, Ltd. will have on display its sliding patio door with blinds, an interactive entry door display, and an innovative new feature that will be available early in 2017.

"At WDDA, our purpose is to help owners of retail window and door businesses be more profitable by providing them with resources to grow their business," said Nicole Harris, WDDA president & CEO. "The Dream Showroom is one example of how we bring that purpose to life. We've elevated The Dream Showroom this year so dealers will see the newest products and technologies in an upscale home-inspired showroom; they can take the ideas and information they see and apply it to their own business."

The Dream Showroom is included with registration for WDDA's Window & Door Dealer Days. Registration is available at www.glassbuildamerica.com with discounted registration prices in effect until September 30, and WDDA members receiving special member rates.

ABOUT GLASSBUILD AMERICA

Now in its 14th year, GlassBuild America: The Glass, Window & Door Expo is the gathering place for the entire glass, window and door industries. Presented by the National Glass Association and the Window & Door Dealers Alliance along with show co-sponsors, the American Architectural Manufacturers Association, the Glass Association of North America and the Insulating Glass Manufacturers Alliance, and in conjunction with industry's leading publications – Glass Magazine and Window & Door – GlassBuild America is a comprehensive and united event. For more information, visit www.GlassBuildAmerica.com.

In 2016, GlassBuild America is being held in October because of a date change by our marketing partner show, glasstec in Dusseldorf, Germany. glasstec, the largest glass industry trade fair in the world, was bumped out of its usual October timeframe into the September timeframe by an even larger plastics industry trade fair. This meant GlassBuild America had no choice but to shift to October for our 2016 event.

ABOUT WDDA

A sister organization of the National Glass Association (NGA), the Window & Door Dealers Alliance (WDDA), www.wddalliance.org, represents the interests of retail, wholesale and installing dealers of new and replacement windows, doors, skylights and related building products. Together, NGA and WDDA provide education and training programs and services for its member companies and keeps them informed through the [Glass Magazine](#) and [Window & Door](#) family of print and electronic publications. NGA and WDDA also produce the industry's largest annual trade show in the Americas, [GlassBuild America](#), and hosts the [Glazing Executives Forum](#) and [Window & Door Dealer Days](#), bringing together thousands of industry professionals to help them build more profitable businesses.
